

It's not just for
technical
people.

AI for Everyone

Program Overview

Empower professionals in various roles with AI-enhanced **design, communication, and decision-making** skills. Focus on the practical applications of AI tools to unlock expert business capabilities such as copywriting, translation, design, analytics, and even coding.

Learning Outcomes

By the end of the program, participants will be able to:

1. **Understand** and leverage AI for workplace productivity
2. **Apply** readily available AI tools for various use cases
3. **Analyze** and decide using data and the help of AI
4. **Integrate** and automate AI in operations and workflow

Program Details

Core Workshop

AI Foundations

Asynchronous Learning

AI Upskilling
